118 Public Schools—53,622 students (includes 2 Vocational Schools).
41 Separate Schools—11,621 students.
Southern Alberta Institute of Technology
University of Alberta, Calgary

APARTMENT BLOCKS AND BUILDINGS—
Residential and Business—
over 900

CHURCHES AND PLACES OF WORSHIP—
201—representing all denominations.

THEATRES—
11.

HOTELS, MOTELS, TRAILER COURTS AND CAMP GROUNDS—
26 hotels of all classes.
43 motels.
7 motor hotels.
10 trailer courts.
1 camp ground.

HOSPITALS and HOMES—
33.

NEWSPAPERS—
2 daily and 5 weekly.

BUILDING PERMITS—

1948—$13,950,205	1956—$ 61,029,219
1949—$21,881,928	1957—$ 56,051,487
1950—$25,864,399	1958—$101,564,471
1951—$22,361,790	1959—$ 99,328,676
1952—$38,773,122	1960—$ 68,918,044
1953—$42,121,154	1961—$ 70,473,853
1954—$46,721,442	1962—$ 87,961,206
1955—$ 58,898,899	1963—$ 91,221,046

LIBRARIES—
1 public and technical and 8 branches.
2 bookmobile.

MILL RATE–
62.5.

GOLF COURSES— 9.

CITY STATISTICS—
565.60 miles of paved streets.
1017.40 miles of paved sidewalks.
744.53 miles of watermains.
697.90 miles of sanitary sewers.
325.40 miles of storm sewer.

POLICE DEPARTMENTS—
417 officers and men.
53 cars - 19 motorcycles - 1 patrol wagon - 2 trucks - 1 station wagon for traffic education.

FIRE DEPARTMENT—
40 pieces of equipment.
14 stations, staffed by 435 officers and men.

POPULATION—(Greater Calgary)
1946—(Dom. Census) 100,044 (city limits)
1951—(Dom. Census) 139,105
1956—(June Census) 196,152
1957—205,000 (est.)
1958—221,500 (est.)
1959—240,000 (est.)
1960—261,200 (est.)
1961—275,000 (est.)
1962—282,000 (est.)
1963—291,975 (est.)
1964—300,000 (est.)

CITY TRANSPORTATION—
Trolley and Motor Bus.
105 trolley buses.
83 diesel and gas.

PARKS—
City Recreation Area—

Public Parks—Ornamental	more than 281 acres
Swimming Pools	10
Golf Courses	9
Community Parks with baseball backstops	123
Community Hockey Rinks	98
Community Pleasure Skating Rinks	126
Playgrounds with Tot-Lot equipment	124
Stadia and Ball Parks (city-operated)	5
Artificial Ice Arena	1
Artificial Ice Rink open	1
Winter recreation centres (use of School Auditoriums)	27

EXHIBITION and STAMPEDE—
The exhibition was established in 1885—the first stampede was held in 1912—a victory stampede was put on in 1919—the exhibition and stampede combined in 1923 and have since then earned an international reputation, increasing in popularity from year to year. The average attendance is over 450,000 for the week, with some 572,246 attending in 1963.

GREATER CALGARY

(By courtesy Chamber of Commerce)

NAMING OF CALGARY

Calgary is named after the old home of Colonel Macleod in the Isle of Mull, Scotland, and was so named in the year 1876. Col. Macleod was then in charge of the North West Mounted Police fort, established at the confluence of the Bow and Elbow Rivers. The word "Calgary" is of Gaelic origin and means "Clear Running Water."

The City of Calgary is the business centre of Southern Alberta. The population of Metropolitan Calgary is estimated to be near 300,000. Its location on the C.P.R. main line and C.N.R. line in the foothills of the Rocky Mountains, at the junction of the Bow and Elbow Rivers, is picturesque. By reasons of its geographical situation, the abundant supply of pure water, the untold wealth of the surrounding country as yet only partially developed, and above all, by reason of its cheap electric power, the City offers most desirable inducements for the establishment of manufacturing industries.

Calgary is approximately 840 miles west of Winnipeg, 620 miles east of Vancouver and 138 miles north of the international boundary between Canada and the United States. Seventy-seven miles east of Banff, the mountain playground of Canada, it towers above every major metropolis with its altitude of 3,439.71 feet.

TO TOURIST AND VISITORS

Calgary offers more attractions than any city in Canada for visitors. Just to name a few, there is Canada's largest Zoo (over 1,200 live exhibits), Natural History Park (53 life size Dinosaur replicas), Calgary Brewery Aquarium and unique Horsemen's Hall of Fame, and opening in July of 1964, the fascinating Heritage Park.

In addition to the numerous points of interest within the city, Calgary centres a magic circle of vacation pleasure. The Badlands of Drumheller are just 88 paved miles East, Turner Valley Oilfields 35 miles South, Banff 77 miles West, with Lake Louise just 30 miles beyond Banff. Side trips to unusual and interesting spots as Elbow Falls, Moose Mountain Ice Caves, huge cattle ranches and Millarville Log Church are only short hours from downtown Calgary.

During summer months, visitors can find a Hospitality House at each entrance to the city where maps, directions, literature and other helpful suggestions are always available, no charge. Year-round information centres are available at the Alberta Motor Association, 11 Avenue and 8 Street S.W., Alberta Tourist Association, 105 - 8 Avenue S.E., and Hospitality Centre, Mewata Park.

Excellent big game hunting is close to Calgary. Ducks, geese, partridge, ring-neck pheasants are found in season. Fishing is excellent, with a wide variety of fish for happy anglers to match wits within the Calgary area.

MUNICIPAL AIRPORT
CALGARY INTERNATIONAL AIRPORT
(McCall Field)

The Calgary International Airport, the "World Crossroad Linking Five Continents," is located 5 miles North of the City centre on the Edmonton Trail, just 15 minutes from the downtown area. The Airport, owned and operated by the City of Calgary, covers approximately 2,700 acres.

On the East side of the Airport, are hangars for storage purposes and facilities for selling aircraft and for major aircraft overhaul. Several local companies operate flying schools, and charter flights from this side.

The Terminal Building, located on the West side, was completed in June 1956 and since that time, has had extensions on the West and South ends, with a further extension planned to the South. On the second floor is located the "BAR YC" (YC is the aviation radio call for Calgary) completed in December 1958 and the first Bar to be built in an Air Terminal Building in Canada. On the same floor is the Patio Dining Room, which features a Buffet Luncheon week days. A view of the City with the majestic Rocky Mountains in the background can be had from the Dining Room. Special features of the building are the Roomettes (another first for Calgary), a Conference Room, rentable to the public, Taxi and U-Drive service, a comprehensive information desk, a complete Customs service available 7:00 a.m. to 1:00 a.m. daily. The Airways Coffee Shop and the Flight Kitchen where meals are prepared for aircraft passengers. Also featured in the main lobby is a mural, painted by a Lethbridge artist, showing some of our pioneers envisioning Calgary, as it is today.

The Department of Transport make use of the Terminal Building, operating Surveillance Radar from the IFR (Instrument Flight Rules) Room, a Control Tower on 24 hour operation, and a Meteorological Forecast Office. A. V.O.R. (Variable Omni Range) is in operation and is located 5 miles East of the Airport and a LF Radio Range is also in operation. West of the Terminal Building is the Golf Driving Range and Miniature Golf; the all concrete Field Aviation Hangar, containing 80,000 sq. ft. plus 13,000 sq. ft. office space. To the right of the main entrance to the Airport, a camouflaged Lancaster Bomber is mounted on a concrete pedestal, in low flying position.

The Airport has three major runways capable of handling the largest aircraft flying today under all weather conditions.

1. The N-S 16 - 34 - is 12,670' long and fully instrument with I.L.S. (Instrument Landing System), High Intensity Approach Lights, High Intensity Runway Lights and Strobe Beacons. The parallel taxi-strip is 8,670' long.
2. The NW-SE - 10-28 - the newest is 8,000' long and equipped with I.L.S.
3. E-W - 7-25 - is 6,200' long with standard Low Intensity Lighting.

PETROLEUM AND NATURAL GAS

The petroleum and natural gas industry has played an outstanding role in changing the face of Calgary during the past dozen years. Oil and gas were discovered many years ago in Turner Valley, to the southwest of the city, and for several decades "The Valley" was Canada's largest oil producing field. The Industry mushroomed following the Leduc discovery near Edmonton in 1947 and Calgary rapidly became the administrative centre of Canada's oil and natural gas exploration and development activity.

In the city are based some 300 oil and gas companies. It is estimated that there are 7,700 direct employees working out of Calgary. The Calgary payroll is estimated at $52 million yearly and office space exceeds 1,800,000 sq. ft.

Substantial natural gas discoveries, and the continuing search for additional sources not many miles beyond the city limits have spawned a rapidly-growing petrochemical industry as the result of the two-fold activity of natural gas processing and large scale gas export from the province.

At the end of 1961, the oil refining capacity of Calgary and district stood at 24,500 barrels daily.

SURROUNDING COUNTRY AND RESOURCES

Tributary to Calgary is a most prosperous agricultural, beef raising and ranching district in area some thousands of square miles, and by virtue of the nutritious and abundant grasses growing throughout the surrounding territory, cattle raised in this locality are of the best; and by reason of its favorable climate and fertility of the soil, grain and vegetables produced in this district are excellent.

IRRIGATION AND FARMING

Calgary is the headquarters of one of the largest irrigation projects on the continent. Water for irrigating the fertile belt stretching from Calgary north east and south, is obtained from the Bow River. The head-gates of the main canal are located inside the eastern city limits.

In the agricultural world Calgary, being the centre of thousands of acres of both irrigated and non-irrigated lands famous for spring, fall, and winter grains of all kinds, vegetables and wild and cultivated grasses, is highly attractive to prospective settlers and investors. As a direct result of this location and the productivity of the surrounding areas, a large stockyard and packing plants operate in Calgary and the grain trade of the Province of Alberta is centred here. Calgary's importance as a grain centre has been officially recognized by the Government of the Dominion of Canada, by the operation of a terminal in this city.

RAILWAYS AND MARKETS

With two transcontinental railways operating into the City, and other branch lines, Calgary offers the wholesaler and the retailer great facilities for trade throughout the whole of the Dominion. This, coupled with an ideal location in the heart of a rapidly and ever-growing market and in the centre of tributary lands containing bountiful supplies of raw materials, places Calgary conspicuously before the manufacturer.

TRUCK TRANSPORTATION

Calgary is on the main Trans Canada Highway and on the main arterial road from the United States border to the north and, therefore the City is in a good position to act as distribution centre for the entire province.

As many as 646 trucks operate out of Calgary every day of the week according to a survey made by the Alberta Motor Transport Association: to Edmonton, 70 daily; Red Deer, 70; Rock Mountain House, 6; Drumheller, 25; Banff, 8; Turner Valley, 27; Brooks, 10, Saskatchewan, 35; Medicine Hat, 27; Winnipeg 25; Toronto, 30; Coutts, 28; Lethbridge, 62; Fort Macleod, 87; Coleman, 35; Cranbrook, 22; Vancouver, 25; Seattle, 6; Montreal, 20; Maritime Provinces, 3; Alaska and N.W.T., 25. Golden, B.C. — 4 trucks daily service; Invermere, B.C. — 2 trucks daily service.

MINERALS, ETC.

Untold mineral wealth underlies the soil, waiting for time and invested capital ere an idea can be conceived as to the intrinsic value and the benefits which accrue to Calgary, Canada and the British Empire therefrom. Chief among the minerals and other products of the lower stratas of the earth, found in the Calgary district are iron, lead, coal (bituminous, lignite, anthracite and coking), silicate sandstone, brick clay and shale, pottery clay, fire clay, etc.

INDUSTRIES

Calgary's chief industries comprise oilfield, and natural gas development requiring two large refineries to handle production, to which have been added two petrochemical plants (a third under construction). Other industries are ranching, meat packing (5 plants).

The chief industries in Calgary and District are: acetylene gas; aerated and mineral waters; alcohol (industrial); agricultural machinery; aluminum extrusions; aluminum windows and doors; artificial fertilizer; artificial limbs; asphalt products; auto accessories; awnings and tents; bags (cotton, jute and paper); bakery products; battery plants; beds; biscuits; boxes (wooden); boxes (corrugated and plain cardboard); brass foundry; breakfast foods; breweries; bricks; bridge building and structural steel; brushes; buttons; caskets; castings and forgings; cement and cement blocks; ceramic tile; chemicals; clay pigeons; cocktail snacks; concrete (prestressed product); confectionery; culverts; dairy products; disinfectants; drilling bits; dry soup mixes; dynamite; electrical accessories; electrical equipment; electrical signs; engines (model aeroplane); farming; feed mills; fire engine assembly; frozen fish fillets; flour mills; fur goods; furnaces (gas fires); furniture; garment manufacturing; gin; glass (ornamental); glass sealants and glazing compounds; greenhouses; hats and caps; heat exchangers and fin tubes; hide curing; hosiery; insulation material; insulated window units; iron gates and fences; jewellery; knitted goods; lead refining; leather goods; light weight aggregates and building material; lime; liquid air; malting; meat packing; mining machinery; monumental and ornamental stone; nails (common and treated); oil bits; oil well equipment; oil refinery; optical glass grinding; ornamental iron railings and furniture; paper containers; peat (soil conditioner); petroleum products; pharmaceutical preparations; planing mills; plaster (gypsum); plastic window sash; polyethylene film and bags; potato chips; prefabricated houses and buildings; pressure vessels; propane; radio (two-way); ranching; railway; rolling stock; sash and door factories; saw mills; seed dressings; septic tanks (fibreglass); sheet metal products; shoes (men's sports); showcases; soft drinks; spices; sports jackets & crest; stage lighting equipment; sulphur extraction from natural gas; surgical instruments; tanning; tanks; tar paper; tailoring; tires (auto, truck, tractor); tools and dies; T.V. tubes (re-built); upholstering; urea chemicals; valves; venetian blinds; water heaters; wallboard (gypsum); washing compounds; wax base weed killer; whiskey; wire (woven reinforcing); wood working plants; yeast.

MUNICIPAL OWNERSHIP

Calgary is essentially a City owned and operated for its citizens' benefit through their elected representatives and owing to this fact its inhabitants enjoy an excellent service from the various municipal undertakings. Commencing in the year 1899, the City purchased the existing Waterworks system. Since that time the Public Utilities of the City have been extended to include Electric Light and Power, and Transit systems.

THE INGLEWOOD BIRD SANCTUARY

Comprises an area of four hundred acres within the City limits and provides Calgary with an unique attraction.

Not only are birds of many varieties to be found there during the summer months, but the half mile long spring lake where the water never becomes colder than 40 degrees and the mile-and-a-half part of the Bow River flowing through the Sanctuary which remain open all winter, provide winter sanctuary for from 3,000 to 5,000 wild ducks and geese annually.

It is interesting to note the beneficial effect of wintering water-fowl at Inglewood in the increased size of their offspring while during all seasons, wild ducks, wild geese, and an occasional wild swan from Inglewood may be seen feeding on the open river water in the residential parts of Calgary.

The Alberta Government have restocked many Alberta streams with thousands of trout that have been reared in the Inglewood ponds.

NATURAL GAS

Natural Gas was first discovered in commercial quantities in the Bow Island field in 1908.

Canadian Western Natural Gas Company Limited, then The Canadian Western Natural Gas, Light, Heat & Power Company Limited, was incorporated in 1911 and in the following year built a 16-inch transmission line, 170 miles in length, complete with distribution plants, from Bow Island to Calgary, with connections to other towns en route. Although much of the original pipe line has been replaced over the years, natural gas continues to flow through the route laid out for Alberta's first major gas transmission line.

In addition to Bow Island the Company has obtained gas from Turner Valley since 1922, from Foremost since 1924, from Jumping Pound since 1951; from Nevis since 1956, to serve the communities south of Red Deer to Airdrie, from Carbon since 1958 and from Okotoks since 1959. The Bow Island field is now being used as a reserve storage field for peak loads. Connections with the Alberta Gas Trunk Line system at various points provides gas for a number of communities.

Canadian Western serves many industrial concerns, among some of the largest are the Nitrogen Plant at Calgary, the Cement Plant at Exshaw, the oil refineries and the City of Lethbridge Power Plant.

While the principal market is the Cities of Calgary and Lethbridge, by December 1961 the Company served 78 other communities.

The number of consumers has risen steadily since 1912, with most spectacular expansion taking place in recent years. In 1950 the Company served 43,324 consumers in 19 communities as compared to the 1963 figure of 103,901 in 84 communities, with natural gas sales having risen from 24,312,210 billion cubic feet to 47,739,540 billion cubic feet in the same period.

CAUTION . . .

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fradulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

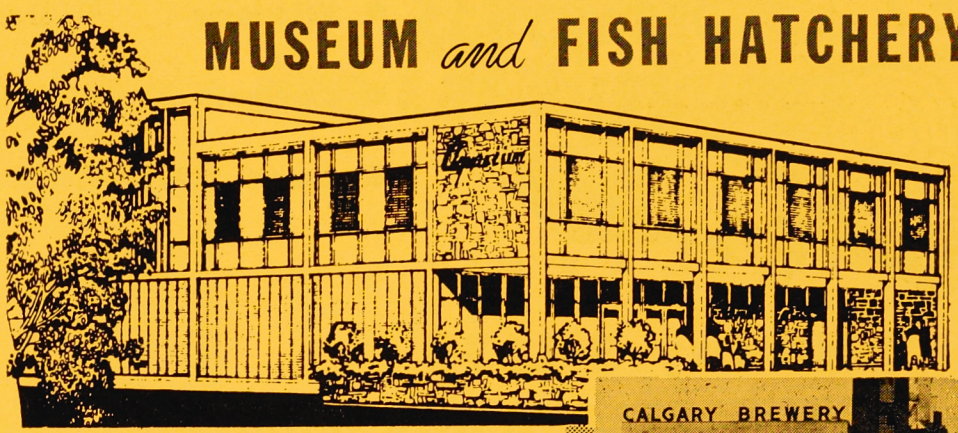
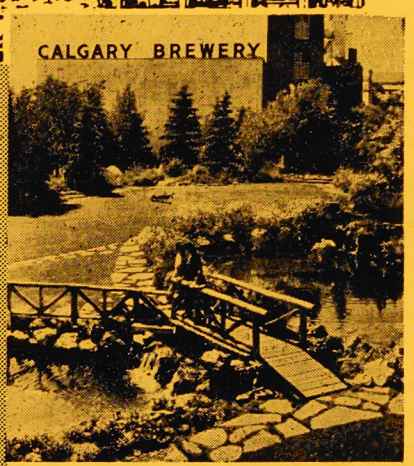
CALGARY BREWERY *Gardens*

featuring the AQUARIUM

MUSEUM *and* FISH HATCHERY





BEAUTIFUL SURROUNDINGS

. . . tall shade trees, a profusion of flowers splashing their color beside dimpled pools and merry little waterfalls create an atmosphere of quiet relaxation here at the Calgary Brewery gardens. Besides natural beauty, there is much else to see: one of the largest fish hatcheries on the continent, a unique aquarium featuring tropical fish, (opening August, 1960), alligators and other reptiles, and an authentic Western museum.

PLANT TOURS DAILY

Guided tours of the Calgary Brewing & Malting Co. Ltd. premises, including informative explanations of the manufacturing process, are conducted daily at 10 and 11 a.m. and at 1:30, 2:30 and 3:30 p.m.

FREE SOUVENIR FOLDERS

. . . are available to visitors joining the conducted tours, or may be obtained on request at the Brewery's main office.

City Directory Usage Soars To NEW HIGH!

Post-war relocations of millions in their permanent homes; readjustments of business to normal conditions; the great new developments in civilian life just over the horizon of the future — these and other things make City Directory listing a "must" for all business people. Remember the huge upswing in City Directory usage.

Do your employers furnish you with the latest edition of the City Directory

?

You need it at your elbow at all times, to protect your company from forgers and bad - check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time It Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Mr. CITIZEN!

Correct Information Is Valuable To You!

Co-operate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. **Your name, listed correctly in the City Directory is a great asset.** This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

EXPLANATION

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in heavy type denote advertisers in the City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson).

A firm name enclosed by parenthesis indicates ownership or co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address; other members of the family and roomers are indicated by r preceding the street address.
